PROFESSIONAL SUMMARY

Final-year B.Tech Artificial Intelligence & Data Science student with hands-on experience in **full-stack web development and workflow automation**. Skilled in building responsive web applications using React, JavaScript, Node.js, Express.js and MongoDB. Experienced in creating AI-powered business workflows using **n8n, OpenAI APIs, REST APIs, Gmail and Google Sheets**. Seeking an entry-level Full Stack Developer or Automation Engineer opportunity to build practical applications and automate real-world processes.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React, Vite, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Database: MongoDB

Automation & AI: n8n, OpenAI API, Workflow Automation, Webhooks, REST APIs

Tools: Git, GitHub, VS Code, Postman

PROJECTS

TastyBite — Full-Stack Food Delivery Application

React | Vite | Tailwind CSS | Node.js | Express.js | MongoDB

- Developed a full-stack food delivery application with food browsing, cart, authentication and order functionality.
- Built responsive and interactive user interfaces using React, Vite and Tailwind CSS.
- Developed backend REST APIs using Node.js and Express.js.
- Integrated MongoDB for storing and managing application data.
- Implemented login state and shopping-cart functionality using frontend state and browser storage.
- Deployed the application for real-world accessibility and testing.

AI Resume Screening & ATS Automation

n8n | OpenAI API | Python | REST APIs

- Created an automated resume screening workflow using n8n and AI.
- Automated resume text extraction, candidate evaluation and scoring.
- Used AI-based analysis to assist with candidate shortlisting.
- Connected multiple workflow steps through APIs and conditional automation.

AI Customer Support Automation

n8n | OpenAI | Gmail | Google Sheets

- Built an AI-powered customer support automation workflow using n8n.
- Automated incoming request processing and ticket categorization.
- Integrated Gmail for communication and Google Sheets for structured data storage.
- Reduced repetitive manual tasks through automated workflows.

EDUCATION

B.Tech — Artificial Intelligence & Data Science

Tagore Institute of Engineering and Technology, Salem | 2023 – 2027 | Final Year
